Provincial Highways Distance Table 1987

King's Secondary Highways and Tertiary Roads

FOREWORD

Distances given in this booklet are the official road distances used by this Ministry for the King's and Secondary Highways and the Tertiary Roads in Ontario as of April 1, 1987. Due to ongoing physical changes in the highway network, some distances may, at times, seem incorrect. Also, odometer readings in a car may give slightly different distances due to equipment inaccuracy, frequent lane changing or other driving habits.

All highways are listed in numerical order, with the Queen Elizabeth Way first. The point descriptions along each are listed from east to west or from south to north depending on the general direction of the highway. An X opposite a point description indicates that it is the chosen centre of the municipality named.

Highways in the 400 series, together with the QEW, are generally multilane, divided, controlled-access routes. Highways numbered from 2 up are generally conventional highways of two or more lanes.

Highways in the 500 and 600 series are Secondary Highways. Roads in the 800 series are Tertiary Roads. Overlapping highways are shown with a slash between the highway numbers (e.g. Hwy. 7/8 or Hwy. 11/17, etc.).

Distances are shown cumulatively in both directions *including* the sections of roads which are *not* under MTC's jurisdiction. The only exceptions occur where a highway is interrupted for construction purposes or ferry crossings.

The explanations of various abbreviations used in the table are given on the following page. Inquiries regarding this booklet should be directed to the Program Planning Information Group of the Highway Program Planning Office, 4th Floor, West Tower, 1201 Wilson Avenue, Downsview, Ontario M3M 1J8.

The Distance Table is a Ministry of Transportation and Communications publication providing the official road distances of the Provincial Highways network.

As a handy guide indicating all destination points along Ontario's economic and social lifelines - the highways, it is hoped that the Distance Table will facilitate the travelling public to plan their routes for easy access to various communities in the province, provide the commercial drivers with accurate distances to ensure efficient Just-In-Time delivery of goods and assist the tourists to locate the recreational centres and attractions.

In our continuing effort in seeking new and better ways to serve the travelling public, this booklet will prove to be a helpful companion to the Official Road Map.
